Island on codimension-two branes in AdS/dCFT

black hole information paradox and island on codim-2 branes One of the motivations of this paper is to show this is not the case In fact, similar to the codim-1 brane 2, we find that there is no massless gravity on the codim-2 brane Instead, the gravity is massive and can indeed be located on the codim-2 brane Let us summarize our main
